11. Has there been any previous appeal, request or application to this Board or to the Planning Board involving these premises? If yes, state the nature of the application, date of application, date of hearing and result received from Board.
- 
- 
- 
12. **For all applications:** Attach to this application a statement of facts showing why the relief sought can be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the Sea Isle City Master Plan and Zoning Ordinance. State why variance relief can be granted without substantial harm to the neighborhood and without significant overturning of the Master Plan.
13. **For "c(1)" Variances:** Attach to this application a statement specifying the hardship/exceptional conditions of the specific property involved that justify the granting of a variance pursuant to N.J.S.A. 40:55D-70c. State what is unique about your specific piece of property, noting such things as an exceptionally narrow, deep, or otherwise unusually shaped lot; physical features located on the lot that prevent its use in a normal manner that would be allowed by the existing zoning; or the specific location of existing structures that limit compliance with the required zoning. Note how the circumstances relating to your particular lot differ from other lots in the neighborhood. State what hardships would result should the variance not be granted to you. Please note that monetary hardship is considered a personal hardship, and is NOT A REASON for this type of variance relief.
14. **For "c(2)" Variance:** Attach to this application a statement setting forth the facts supporting your position that the purposes of the Municipal Land Use Law would be advanced by a deviation from the Zoning requirements in question, and that the benefits of that deviation would substantially outweigh any detriment to the zoning ordinance or master plan, pursuant to N.J.S.A. 40:55D-70c(2). Among the purposes of the Municipal Land Use Law are the following: promotion of public health, safety and welfare; provision of adequate light, air and open space; establishment of appropriate population densities; provision of sufficient space for agricultural, residential, recreational, commercial and industrial uses and open space; promotion of a desirable visual environment; conservation of historic sites, districts, open space and natural resources;

encouragement of senior citizens housing. Cite which of these apply to your application and further, cite the characteristics of your land that will present an opportunity for improved zoning and planning to benefit the community.

15. **For Use and other "d" Variances:** Attach to this application a statement setting forth the special reasons for granting this variance pursuant to N.J.S.A. 40:55D70d. "Special reasons" exist where a proposed project carries out a purpose of zoning (such as those noted in Section 14 above), or where the refusal to allow the project would impose an undue hardship on you (note that a personal hardship, such as monetary hardship or a hardship you create, cannot form the basis for granting a variance). If you are seeking a use variance, you should also state why the property at issue cannot reasonably be developed with a use permitted by the Zoning Ordinance.

16. **For all applications, if an application was first submitted to and denied by the Zoning Official:** Set forth specifically the determination of the Zoning Official from which an appeal has been filed and the basis for the appeal (N.J.S.A. 40: 55D-70a), or attach a copy of the Zoning Official's letter to you.

17. **For Interpretation Requests:** Set forth specifically the Zoning Ordinance section and provisions and/or the portion of the Zoning Map for which an interpretation is sought. Explain what interpretation you are seeking. (N.J.S.A. 40:55D-70b).

18. List all professionals employed by the applicant in completing the application to the Zoning Board of Adjustment and/or intended to be called as witnesses at the hearing on the application.

Note: a separate Verification must be submitted for each owner of the property. For condominiums, you must submit a signed verification from each member of the condominium association, or, if more than four units in the condominium, a resolution from the condominium Board of Directors indicating its consent to the application.

## ANSWERS TO QUESTION 14

The applicant, owner of the property, seeks a front yard setback variance relief to construct a 6-foot fence on an existing duplex in a duplex zone. The applicants decided to construct a fence for privacy as the front yard setback area is also their side yard setback. The existing building has an area where there is a shower, and the applicant would like to be able to use privately, as well as enjoy the use of the area for sitting outside without being exposed to the open street. The justification for the variance for the fence is found in the purposes of New Jersey Municipal Land Use Law stated in N.J.S.A. 50:50 5D-2. Specifically, the following purpose of zoning would be advanced by allowing the appellate to deviate from the required bulk standards:

- A. To encourage Municipal action to guide the appropriate use or development of all lands in the State in a manner which will promote public health, safety, morals, and general welfare. Here, the fence will promote general welfare by allowing the use of an outdoor shower and open space without fear of intrusion by the general public.
- C. To provide adequate light, air, and open space. The fence provides the applicants with more ability to enjoy the community by encouraging the applicant to spend more quality time outdoors with their families and neighbors.
- i. To promote a desirable visual environment. The proposed fence will be consistent with the fence that is on the opposite side yard of the property, and therefore aesthetically it will be consistent with the other fence, as well as being consistent with the types of fences in the surrounding neighborhood.

As a result of the foregoing, the variances can be appropriately granted under ( c ) (2) standard as several purposes of zoning will be met as enumerated above. The requested variances can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance. These tests require the Board to engage in a balancing of the zoning benefits versus the zoning harms. There will be multiple zoning benefits achieved by approving this Application that are enumerated herein. These zoning benefits, including promoting general welfare, providing more light, air, and open space and creating a more aesthetically pleasing structure will have a positive effect on the zone plan, zoning ordinance and the neighbors. Therefore the negative criteria is satisfied.
