

# Veterans Assistance Project

The Veterans Assistance Project is a voluntary referral service. Its purpose is to refer veterans who come in contact with the court system and who may be in need of veteran's services to their Veterans Service Office. Services that may be available can include mental health counseling, addiction services, legal services and housing.

The Veterans Assistance Project strives to get services and support for veterans to improve the quality of life for the men, women, and families who have made sacrifices in the defense of the United States.
