

CITY OF SEA ISLE CITY

QUESTIONS & ANSWERS SET 3

Below is a question submitted by an interested party and an answer provided by the City of Sea Isle City regarding the 2020 Water and Sewer Pipes and Fittings bid

Question “[T]here are 5 parts A-E [in the bid specifications]. Are you awarding by Parts or by line item or by total base bid of entire bid.”

Answer Each line item will be awarded individually. There is no requirement to bid on every line item; please bid on the line items that you feel well suited to provide.

Note that prices from the successful bidder for each line item will be held firm and fixed for the duration of the contract (November 1, 2020 through October 31, 2021).

Further, the award of an item does not guarantee that the item will be required during the contract period. This contract is subject to actual need as established by the various using departments and divisions of the City of Sea Isle City. Purchase orders will only be issued as items are required. **No item shall be sent to the City of Sea Isle City without first obtaining a written purchase order for said items.**
